

Overcoming Adversity: Arpita's Pursuit of a Medical Career

"JEF has not just provided financial support; they've ignited a spark within me. I'm determined to make the most of this opportunity and contribute to society."

Arpita Jatti

JEF Scholar 2022 to 2024
A.C.P.M. Medical College, Dhule

Arpita's father, a dedicated photographer, worked tirelessly in various studios to support his family. The cost of coaching for the highly competitive MBBS entrance exam seemed insurmountable.

However, a ray of hope emerged when Arpita received a JEF scholarship during her 11th and 12th grades. This crucial support enabled her to enroll in coaching classes, providing her with the necessary guidance and resources. After a determined second attempt, Arpita triumphed in the NEET entrance exam, securing a coveted seat at A.C.M.P Medical College, Dhule.

But the journey was far from over. The hefty MBBS fees posed another significant challenge. Thankfully, JEF continued to support Arpita by awarding her a scholarship for her first year of medical education.
