

Padho Jalna program aims to achieve foundational literacy and numeracy among children in Jalna. Working with local communities, government, schools, and teachers, we have developed a comprehensive and scalable program that can achieve the goal of foundational learning for all.

Only 1 in 3 children in Jalna are foundationally literate.

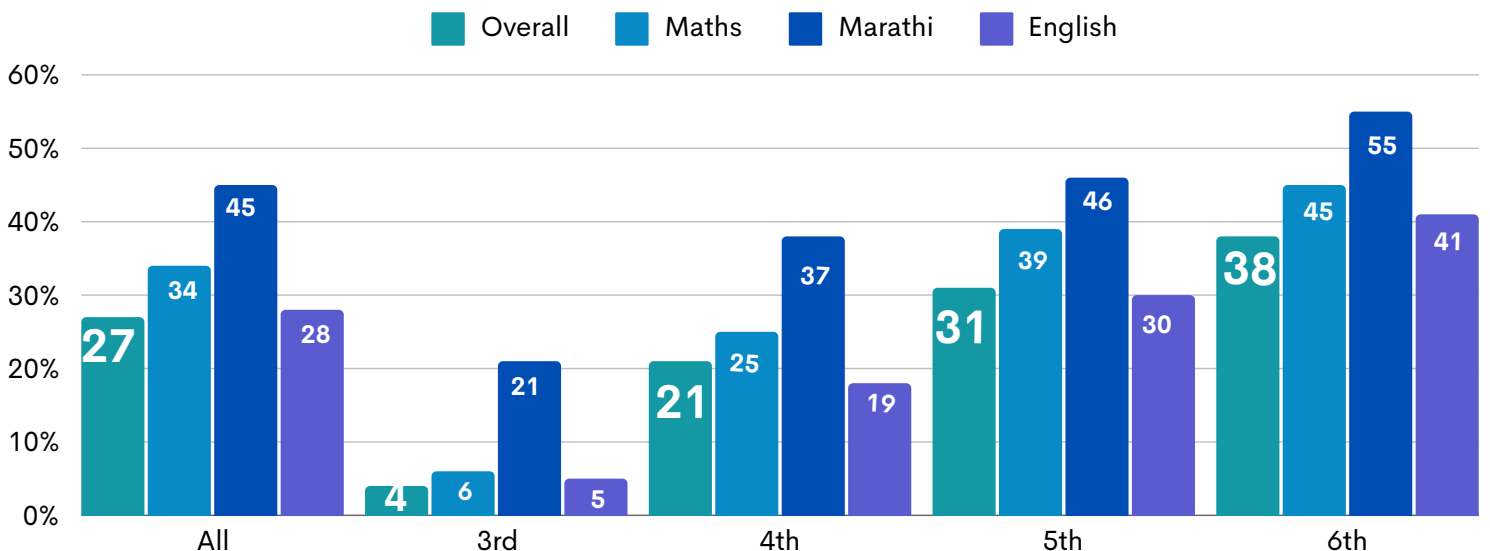

Only **1 in 3** children were able to do basic mathematics, **less than half** are able to do simple tasks in Marathi and less than a third understood English at class-2 level.

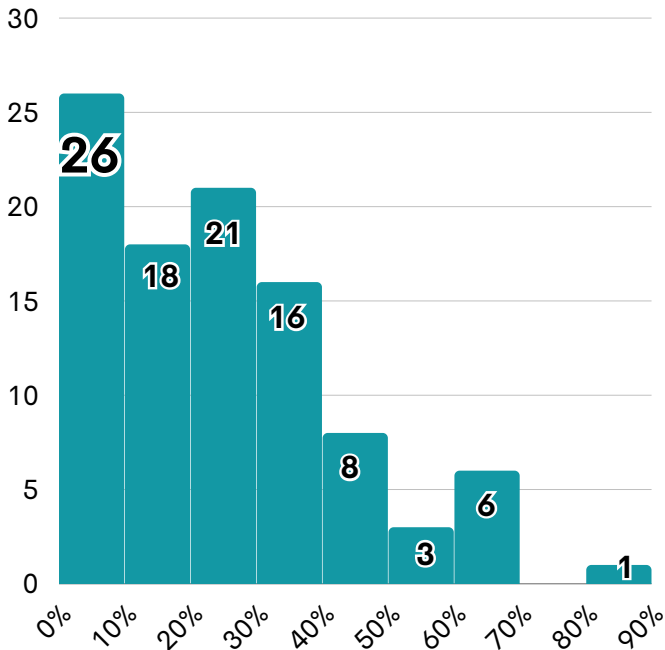

7600 students in 101 Government Schools were assessed by Padho Jalna in 2024-25

Even in class 6 only 38 percent of children can do Maths and Marathi at class 2 level.

26 Schools out of 101 had less than 10 percent children who are foundationally literate.
