

A Triumph of the Human Spirit: Rahul's Journey from Adversity to Excellence

“My journey from an orphanage to one of Maharashtra's premier engineering institutions stands as a testament to my perseverance and the transformative power of educational support.”

Rahul Satpute

JEF Scholar 2021 to 2023

Government College of Engineering, Pune

Despite losing both parents at a young age, Rahul's determination to pursue education never wavered. Raised by his grandmother in Partur and studying in an orphanage from 3rd standard onwards, he demonstrated remarkable resilience in the face of profound personal loss.

His dedication caught the attention of several individuals and organizations, particularly Engineer Snehalkumar Tribhuvan, who recognized his potential and provided crucial support.

Jalna Education Foundation (JEF) played a pivotal role in Rahul's journey by providing scholarships throughout his three years of polytechnic education. His exceptional academic performance, culminating in a stellar 94.5% in his final year, opened doors to the prestigious Government College of Engineering, Pune.
