Foreword

First, gratitude to the universal energy that flows through all of us that has led us to the third year of JEF scholarship. This year we have been able to reach and help more students than before. At the same time we would like to acknowledge that our education system, society and government policies need to change substantially if we are to really achieve equality of opportunity for all.

First, let me summarize the features of this year's scholarship:

- JEF scholarship 2023-24 **received over 500 applicants** across 14 different streams from within Jalna district.
- **271 applicants were selected and awarded Rs. 31+ Lakhs.**
- **Over the last three years JEF has awarded scholarships worth Rs. 75 Lakhs to 600 scholars.**
- **68 percent or 184 out of 271 are from the Polytechnic stream.**
Polytechnic is a vocational education program that caters mostly to rural and poorest sections of the society that are unable to pursue 11-12th Science education due to cost constraints. All our scholars are meritorious - the cutoff for all polytechnic scholars was 85 percent in 10th Board exams.
- **55 percent or 146 scholars are girls.** This is because we have made a concerted effort to support courses that girls prefer and we also have a 50 percent women requirement in each course.
- **More than 70 percent of our scholars are from rural Jalna.** All scholars' parents are hardworking small farmers or daily wage laborers or have tiny shops.
- Many of our previous year's JEF scholars have obtained more than 60 percent marks and are being supported in their second and third year by JEF.
- We ensured all 20+ eligible Engineering and Medical applicants to JEF scholarship obtain support from other organizations like Foundation for Excellence or from us.

We interviewed all our scholars and visited most of their homes to understand their circumstances better and the stories we heard and saw are just awe-inspiring. Pushpa Gajjar, JEF Engineering Scholar, is pursuing Engineering from Pune. She has been a part of JEF since 8th class - part of JEF Coaching. She received a JEF scholarship for her 11-12th Science studies. She traveled from Gundewadi everyday to Jalna to attend school. Later JEF helped her move to Jalna for her 11-12th classes. She displayed enormous courage and hard work and gave engineering entrance twice before she succeeded.

Abhishek Guntuk, son of daily wage laborer in Jalna grain market (Moonda) has been associated with JEF from 8th grade and was among the toppers for Engineering entrance exam from Jalna district. Several of our polytechnic scholars have worked in garages, farms, stores so they could pursue their dreams to be Engineers. **Each JEF scholar has their own individual story filled with challenges. Each one of them has shown that they are greater than their challenges, greater than the external circumstances and greater than the constraints imposed on them by society. Let's salute them.**

This is also a point of introspection and reflection for us as a society. **Our founding leaders - Mahatma Gandhi, Jawaharlal Nehru, Sardar Patel, Dr. Babasaheb Ambedkar and others - dreamt of a society that would have equal opportunities for all.** Equality not just in the political sphere in the form of one person-one vote but also in economic and social spheres was Babasaheb's dream. We are today far off from those goals. **Inequality in outcomes and in opportunity has grown substantially over the years. Unequal access to quality education is one of the root causes of this inequality.**

Access to higher education has become a privilege for a few elites in the society, rather than a right for all. **Pursuing professional courses - getting admitted in those and having the economic resources to pay for them - is out of reach of the majority of Indians.** High quality coaching classes that help students succeed in entrance examinations are extremely expensive and out of reach for the majority of students. In Jalna, fees of enrolling in quality Engineering or Medical entrance coaching classes is 1.5 Lakhs for two years and this increases to more than 5 Lakhs for students who go to Aurangabad or Pune or Kota to enroll in such classes.

The cost of quality coaching is 15 to 50 times the monthly income of the majority of parents in India. In plain terms this is unaffordable for the majority. Without quality coaching one's chances of succeeding in entrance examinations are extremely small.

Even if one succeeds to secure admission in good higher education institutions, the cost of higher education is a crushing burden for the majority of Indians. Cost of pursuing engineering and MBBS education from a Government college, after all fee concessions, is more than 6 Lakhs over the course of the program (with fees component more than half of it). BSc Nursing, Polytechnic and all commerce streams are similarly unaffordable for majority of Indians. This all becomes 5 to 10 times more if one wants to go to Private colleges. Over this our society burdens girls with constraints on mobility, behavior and limited investments in their future. **We need a serious rethink of our choices as a society if we are to be a truly free, independent and successful nation.**

JEF scholarships are a mere short term solution that can reach only a few. They cannot be a permanent solution for all. Having said that, JEF scholarship helps many in achieving their full potential. I sincerely commend JEF Donors and supporters for coming together year after year to support the scholars. You are increasing your abundance and prosperity by being associated with these efforts.

Finally, I would like to heartily congratulate and thank JEF Trustees and Staff for their tireless efforts in making this possible. JEF Staff has publicized the program across villages in Jalna, collected, scrutinized and surveyed applicants to select JEF scholars and organized everything. This is a humongous task for such a small team. Gratitude to the numerous people who have helped JEF in seen and unseen ways. **Gratitude to the Masters and the universe for letting this work flow through us. JEF will always help those who make sincere efforts and ask for help. We will continue to do our best and surrender all our work and efforts to the universe.**

JEF Support a Scholar Scheme

SELECTION OF SCHOLAR

OUR SCHOLARS

Support a Scholar Policy

There are four steps in the Support a Scholar scheme.

- First scholars apply for the program through the website (by downloading the form from www.jefJalna.com/downloads.php and submitting by email) or by submitting a paper form in the JEF office.
- A household survey of all select eligible candidates will be conducted.
- Next two lists of candidates will be declared – a list of scholars who will receive the scholarship for the entire duration of their program and a second list of scholars whose profiles will be uploaded on the website for matching with potential donors.

Academic Excellence Criteria:

1. Scholars studying in these professional courses: MBBS, BE/BTech, BPharm, B.Sc Nursing and Chartered Accountant (CA) are eligible for the scholarship. Scholars studying in 11th 84Science or Commerce and Polytechnic are also eligible for the scholarship.
2. Only those new, first-time students who are beginning their 1st year in the academic year 2021-22 are eligible. Applicants already in their 2nd year of study (or above) are not eligible.
3. The applicants should have passed their Class XII qualifying examination (Higher Secondary/Pruniversity/Intermediate/CBSE/ISC or equivalent board) in, 2020 or 2021. However, students who have passed their qualifying examination in 2021 will be preferred over those who have taken a break for preparation and better performance in their common entrance tests.
4. The support-a-scholar merit list of students will be prepared on the basis of their open/general merit rank (and not category rank) at the state or national level entrance tests as stated below.
5. Scholars should have completed their 10th or 12th examination from Jalna district.

Income Criteria:

1. The gross family income must be less than 2.5 lakh per annum.

Gross

income refers to the income before deduction of taxes.

2. Where the parents/Guardian of applicants is an employee, a salary/pay slip from the employer is mandatory. The salary/ pay slip should clearly show the family member's gross monthly salary with full details of his/her basic salary and all allowances and deductions. The employer and the facilitator should certify the salary/ pay slip.

Submission of an income certificate from a local or other government authority in lieu of a salary/pay slip is not acceptable.

3. Where parents/Guardian are retirees/pensioners, a pension statement

from the pension authority and/or from an authorized bank showing the

gross monthly pension of the family member, inclusive of any supplementary allowances before any deduction is required.

4. Where parents/guardians are business or self-employed /income certificate issued by any government authority or income tax return should be submitted in support of the gross family income specified in the

application. Specific details of the nature and size of the business or self employment should also be provided.

5. Where parents/guardians are agriculturists or have farming or cultivation income, an income certificate from a recognized or competent authority should be submitted. Details of the nature and size of the land holding, crops grown, etc. wet and dry land irrigation should also be provided.

6. There is no requirement for submission of an income declaration or affidavit on stamp paper.

JEF Scholars

JEF selection committee will visit the shortlisted candidate's home for verifying all details submitted by the candidates. The committee has the right to verify and decide regarding the income certificate produced by the student. If the committee desires, it may call the candidate and parents personally for an interview. The decision of the committee in this regard will be final. In case the foundation identifies that it has been presented with incorrect information by any candidate, the foundation will stop any further installments and recover any disbursed amount from the candidate.

At least 50% of the selected scholars among each category will be female. If there are insufficient eligible female candidates, then this criterion will not apply.

The final priority list of all scholars selected under the Support a Scholar program will be announced by JEF. Two lists would be declared - first ones who have been given a scholarship and the second of students whose profile will be displayed on a website for matching with potential supporters. If a donor decides to support the scholar from the second list, then JEF will facilitate the process. The list of students on the second list are not guaranteed any support unless they are matching donors are found.

Required Documents:

1. Applicants for scholarships must submit a "Bonafide Certificate" issued from the college authorities in the current academic year, establishing their status as a student for the specified course and year.
2. The Rank Certificate stating the rank scored by the student in the Entrance examination & the counselling letter issued to student during the seat allotment process should be submitted (except for 11th/12th scholarship students).
3. Receipts for fees paid for admission to the program for the academic year should be submitted with the scholarship application.

4. Oath & Pledge form signed by the student and the Parent declaration

should be signed by the parent.

5. Domicile certificate in form a TC for 10th or 12th showing completion

from a Jalna school/college.

6. All applications must be filled in English only. Similarly, all supporting

documents must also be in English.

Renewal of Support:

Scholars should pass their examinations with more than 60% marks for scholarship to be renewed for that year.

The scheme as announced may be amended or changed from time to time or withdrawn partially or altogether by the foundation without any prior notification at the discretion of the foundation. In the event of any dispute or difference of opinion as to the interpretation of rules and provisions of the scheme or selection of students for scholarship, the decision of the governing body of the foundation shall be final and binding on all. The number of scholarships offered for each year, based on the support JEF receives.
